Cyclonic Care

With this function together, it gives a powerful upward water flow that gives your clothes a deep clean yet gentle wash, so that your clothes are circulated evenly in the drum and get less tangled.

Prism Drum

Helps to reduce friction between clothes and the drum preventin damages in the fabric.

Wool Function

Cycle that washes you woolen garments with care.

Cyclonic Tub Clean

After rinse cycle, only 65% of water is drained.

At spin cycle, the tub and pulsator rotate simultaneously.

Centrifugal force pushes water onto the outer tub creating a scrubbing / cleaning action.
